

As a Citizen of the united states, and part owner of its airwaves, I am keenly interested in the "Public Interest" portion of the broadcaster's mandate. This is NOT served by consolidation of ownership. Media consolidation has, since 1996, resulted in a proliferation of quantity, but a degradation of the quality and diversity of broadcasting, especially news. Please remember that you are public servants and as such you must serve the public interest, not corporate interests. NO to further media consolidation.

Sincerely,
Marc Tyler
